JUSTRITE®
The Basics

Our interlocking ribbed grid surface ensures precision stamping because all images line up perfectly. Choose from a selection of interchangeable fonts, borders and centers. Stamp designs have a matching interlocking rib which securely locks into place in the grid system on the wooden stamper.

Getting Started

- Assemble your stamping image by simply snapping your border into place by holding it on the mount with one finger as your other finger pushes the border into the border groove.
- Choose the center you want to coordinate with your border and snap into place.
- Start at the bottom of the grid and gently snap the rib into the groove, working your way to the top by moving your fingers up the image.
- Choose a predesigned center while customizing the outer border with your own message. Or use our predesigned border and create your own center message.
- Use our font collection to create custom stamping phrases for cards and scrapbooking.

Color Coding

The rubber grid on the wooden stamper is color coded to match the color rubber of the coordinating size designer centers and borders stamps.

The exception to the rule: Our Fonts come in different colors too but you can use any font on any size stamper. Font is interchangeable with all our products. Our 1 3/16" stamper is the only one that does not accept 95 pt. font. We have given each of our typefaces a color so that it is easier to put away your letters once you have used them.

Color	Product
Gray	1 $^{3}/_{16}$" Round Stamper
Purple	1 $^{5}/_{8}$" Round Stamper designer centers and borders
	2" Round Stamper is also purple *it accepts all the 1 $^{5}/_{8}$" product*
